Bonus on Deposit

Offer valid in selected countries. Please check with your local sales office for more information.

A. To benefit from the offer

To benefit from this offer, the client must:

- For new clients, complete the required registration form provided by Magno Technology Broker (MTB).

B. Special Terms

- When funding an amount between USD 1 and USD 1,000, the client receives an additional 50% in their trading account.
- When funding an amount between USD 1,000 and USD 3,000, the client receives an additional 25% in their trading account.
- When funding an amount between USD 3,000 and USD 10,000, the client receives an additional 10% in their trading account.
- When funding an amount between USD 10,000 and USD 100,000, the client receives an additional 5% in their trading account.
- Affiliates and educational partners of Magno Technology Broker (MTB) may offer different bonus percentages or promotional conditions to their referred clients, subject to the prior review and approval of MTB. Any bonus granted under such arrangements shall be governed by these Terms and Conditions unless expressly stated otherwise in writing by MTB at the time of granting.

C. Eligibility Terms

1. Subject to and without prejudice to all terms and policies, the offer is available to Magno Technology Broker (MTB) clients who meet the eligibility criteria that allow them to receive the offer (“Eligible Clients”), as specified below.
2. Magno Technology Broker (MTB) may from time to time provide a “Bonus Program” to clients who open real trading accounts, where such clients have learned about MTB through certain websites and/or social media networks, under specific promotions and/or surveys conducted by MTB.
3. Magno Technology Broker (MTB) offers, at its sole and absolute discretion, the “Bonus Program” to any client(s) and/or country/region as it deems appropriate.
4. Only individuals who are legally able to enter into binding contracts under the laws of their country of residence may participate in the “Bonus Program”. Individuals under the age of 18, or below the legal age in their country of residence, are strictly prohibited from participating.

D. General Terms

1. The bonus crediting process may take up to 24 hours.
2. The “Bonus Program” applies to all clients who open real trading accounts with Magno Technology Broker (MTB) in accordance with these Terms and Conditions. The bonus is granted strictly for trading purposes and cannot be withdrawn.

3. Any withdrawal of funds from a real trading account with Magno Technology Broker (MTB) will automatically invalidate all bonuses granted. All previously credited bonuses will be removed from the client's account.
4. In the event of internal transfers between trading accounts held with MTB, bonuses credited to the sending account will be transferred to the receiving account proportionally to the transferred amount. No additional bonus will be credited following such transfer. If the receiving account is not eligible for a bonus, the proportional bonus amount will be revoked.
5. Bonuses cannot be transferred separately between or from real trading accounts.
6. Magno Technology Broker (MTB) reserves the right, at its sole discretion, to refuse participation in the "Bonus Program" without providing justification. MTB also reserves the right to exclude any participant found to be manipulating or attempting to manipulate the bonus system or violating these Terms or any applicable MTB policies. MTB shall not be held liable for any consequences resulting from the cancellation of the bonus, including order closures triggered by stop loss.
7. Magno Technology Broker (MTB) reserves the right, at its sole discretion, to discontinue the bonus program at any time. Affected clients will be notified via email.
8. If a trading account becomes frozen, all bonuses previously credited will be immediately removed.
9. Each eligible client may benefit from this offer on more than one occasion. Subsequent deposits and re-deposits may qualify for additional bonuses, subject to the approval of Magno Technology Broker (MTB) at its sole and absolute discretion.
10. The offer is available to both existing and new clients of Magno Technology Broker (MTB).
11. The client must place a minimum amount of required trades and maintain the credit for a minimum period to qualify to keep the credit in the account and avoid the due commission penalty upon withdrawal. For every $100 of credited bonus, the client must open a minimum of 2 lots on gold and currencies only, and the bonus must remain active in the account for at least 60 calendar days from the date it is granted. Each new bonus credited to the account will reset the counter, and the required number of lots and the minimum period must be met again in full from the date of the new crediting. Where Magno Technology Broker (MTB) determines, at its sole discretion, that positions have been opened and closed within short periods of time for the primary purpose of artificially meeting the required trading volume, such trades will not be counted toward the required number of lots. In the event of a withdrawal before meeting the required number of opened lots or the minimum period, all profits achieved will be deducted from the client's total balance that was

available in the account before filling out the withdrawal request, and he is only entitled to withdraw the deposit amount.

12. The bonus is not added automatically. The client must submit a request to the support team of Magno Technology Broker (MTB) to have the bonus credited, or request it through certain affiliates, who will be responsible for managing the request.
13. The maximum bonus amount a client may receive under this program is USD 10,000 per qualifying deposit. This limit applies individually to each deposit and does not constitute a historical or accumulated limit per client.
14. The client must maintain sufficient balance to cover margin requirements for open trades. Bonus credit cannot be used to open new trades if the account balance falls below the required margin. If the balance becomes negative, it will be reset to zero, and any remaining bonus credit will be canceled upon a new deposit.
15. The use of Expert Advisors (EAs) and/or any form of automated trading, including but not limited to trading signals, arbitrage techniques, exploitation of price errors or non-market quotations, and any form of price manipulation, is strictly prohibited for accounts participating in this “Bonus Program”. The use of proxies is also prohibited. All trading instruments available on the trading platform may be used, and manual trading strategies, including scalping, are permitted. Orders placed at non-market prices may be canceled.
16. Any indication or suspicion, at the sole discretion of Magno Technology Broker (MTB), of arbitrage (including risk-free profit strategies), abuse, fraud, manipulation, cashback arbitrage, or any deceitful or fraudulent activity will result in the immediate cancellation of all bonuses, annulment of profits, and potential suspension or permanent closure of the client’s trading account(s). MTB shall not be liable for any consequences arising from such cancellation, including forced order closures due to stop out.
17. Any threat, act of defamation, dissemination of false or misleading information, or any conduct of a malicious and/or harmful nature directed toward Magno Technology Broker (MTB), its affiliates, educational partners, collaborators, or community members, where supported by verifiable evidence, will result, at the sole and absolute discretion of MTB, in the immediate cancellation of all bonuses, annulment of profits, and potential suspension or permanent closure of the client’s trading account(s). MTB shall not be held liable for any consequences arising from such measures, including forced order closures due to stop out.
18. Losses incurred in the trading account shall be applied first against the client’s own deposited capital and subsequently against the bonus credit. Any profits generated during periods in which the account balance consists solely of bonus funds shall not

be considered withdrawable and will be annulled. Magno Technology Broker (MTB) reserves the right to perform the corresponding calculations and adjustments at the time of any withdrawal request.

Magno Technology Broker (MTB) reserves all rights not expressly stated herein.
